

Brushmatic BSM 650 D

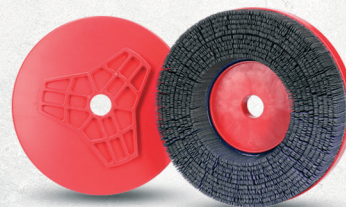

Deslagging

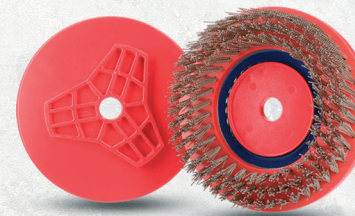

Edge rounding

Stainless steel brush

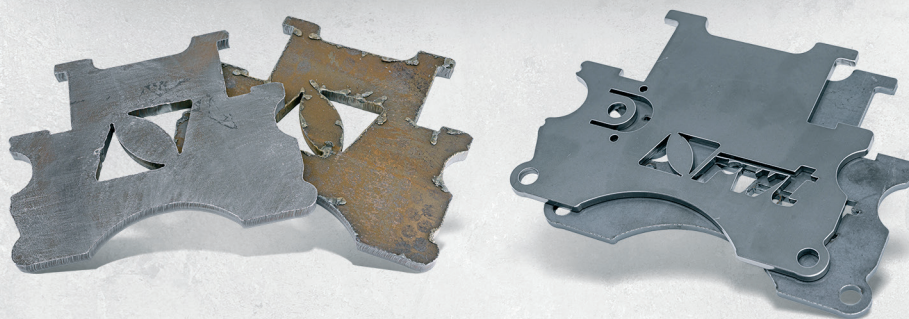

Deburring disc HERO

Oxide removal

Reclosable

Technical parameters

Working width	650 mm
Part thickness min - max	0,5 - 100 mm
Conveying speed	0,3 - 10 m/min.
Number of discs	3
Disc diameter	260 mm
Speed rotation of the disc D	450 - 1200 RPM
Speed rotation of the brush B	500 - 1200 RPM
Diameter of brush (schotchbrite or steel)	200 mm
Voltage	3x 400 V/50 Hz
Motor power of the unit D (B)	4 kW
Motor power of vacuum fan	2,2 kW
Total machine power (with vacuum fan)	5 kW (7,2 kW)
Diameter of suction nozzle	150 mm
Machine weight (with vacuum fan)	600 Kg (630 kg)
